Sasha - I think I would be good because I am a very good listener and talker. I got the head of Hamonds High school interested in the Youth Town Council. I am a confident person.

Have already asked young in Swaffham about what they would want.

Mario - I think I should be chairperson because I feel that I can encourage everyone in this room to do the best we can during our 2 year term we are serving. I think you should elect me because I feel that I have the leadership qualities like being able to listen to you and

not be shy to talk in front of people. Also I promise to provide my full attention and make your ideas count. Because the youth council doesn't just work with 1 person it works with all of us as a group. As we have volunteered ourselves to persuade young people that they are valued and can make a difference.

And that's why I think I should be chairperson.

encourage everyone in room to best we can. Leadership qualities not shy - full attention - work as a group.

Emily - I didn't prepare a speech so must improvise which shows initiative. I am good at talking and listening, processing and interpreting information, debating issues, considering other points of view with tact and diplomacy. I am committed to using organisational skills etc to help organise our youth council to effect change.

Chris - I think you should vote for me because I have had experience in previous schools. My mum works in the council in Narborough could have a lot of activities with Narborough
